

ERRATUM

“COGNITIVE FUNCTION IN COPD”. J.W. DODD, S.V. GETOV AND P.W. JONES. *EUR RESPIR J* 2010; 35: 913–922.

Regretfully, two of the table citations in the above paper were presented incorrectly. The first sentence of the “Cognitive function and hypoxaemia” section should have referred to table 2, not table 1. The same error occurred in the first paragraph, second sentence of the section, “Is there a specific pattern of cognitive deficit in COPD?”; table 2 should also have been referred to here and not table 1.
