
The originally published article states that:

“There will be a maximum nicotine volume for e-cigarettes (2 mL for single use and 10 mL for refillable cartridges), and a maximum nicotine concentration for refillable cartridges, tanks and containers of nicotine liquids (20 mg·mL⁻¹).”

However, it should state that:

“According to Article 20 3 (a) and 20 3 (b) of Directive 2014/40/EU [1], ‘Member States shall ensure that: (a) nicotine-containing liquid is only placed on the market in dedicated refill containers not exceeding a volume of 10 ml, in disposable electronic cigarettes or in single-use cartridges and that the cartridges or tanks do not exceed a volume of 2 ml; (b) the nicotine-containing liquid does not contain nicotine in excess of 20 mg/ml’.”

The authors apologise for this error.
